### **Days 3-4 Drake Passage/South Shetland Islands**

The adventure begins with an 800km (497mi) crossing of the passage named in honour of the 16th-century English sea captain and privateer, Sir Francis Drake. Take in daily lectures from the expedition team and keep an eye out for the first sightings of icebergs, whales and albatross following in the Expedition's wake.

The G Expedition is at home in this part of the Southern Ocean, known for the unimpeded never ending fetch of the winds that encircle the Antarctic.

As the Expedition crosses the passage there will be time to become acquainted with the ship and frequent the common areas that include the lounge, dining hall, library and lecture hall where we meet our guides, ship's crew and expedition staff.

Begin lectures and information sessions to learn the extraordinary human and natural history of the Antarctic region

### **G Expedition**

Drake Passage - South Shetland Islands

Not too big, not too little, our 134-passenger polar expedition ship is just right.

### **Daily lectures and educational program**

Attend lectures hosted throughout the day on everything from local wildlife to geology to history. The G Expedition has one of the highest ratios of expedition team members to guests - with one expert for every ten guests there is always someone on hand to answer questions and provide greater insight and appreciation of the world at its extremes. The expedition team is comprised of professional and highly skilled historians, marine biologists, and naturalists who offer keen insight and a unique personal perspective to each and every adventure.

### **Free Time**

Drake Passage Full Day

Spend time out on deck and keep an eye out for sea birds and whales that live in these fertile waters. Wandering, Black-browed and Light-mantled Sooty Albatross, Prion's and Cap Petrels are among some of the species of seabirds that may follow the Expedition on the journey towards Antarctica.

**Meals included: Breakfast | Lunch | Dinner**

### **Days 5-8 South Shetland Islands/Antarctic Peninsula**

Experience some of the most unique wildlife viewing and inspiring scenery in the world while setting foot on the Antarctic continent. Attempt two shore landings per day (weather permitting) and encounter Gentoo, Chinstrap and Adélie penguin rookeries, Weddell, crabeater and leopard seals, and orca, humpback and minke whales in the cold Antarctic waters. During the voyage, learn about the peninsula's remarkable history.

This is what we've all been waiting for - a chance to explore step foot on the Great White Continent! Over the next 4 days the Expedition will navigate southwards making stops in the South Shetland Islands then through the Bransfield Strait and to the Antarctic Peninsula.

Our goal is to attempt two excursions per day while navigating through the area but the itinerary and daily schedule will be based on the local weather and ice conditions.

During the voyage, learn about some of the most important and dramatic expeditions to this remote corner of the world.

### **G Expedition**

South Shetland Islands - Antarctic Peninsula

Not too big, not too little, our 134-passenger polar expedition ship is just right.

### **Zodiac Landings**

Antarctica

Hop into one of the Expedition's 14 Zodiacs and take the quick, safe trip from the ship to the shore to encounter the awe-inspiring wilderness of Antarctica. Thanks to the performance of these boats in remote conditions, quick trips to shore are easily accomplished. Get up close to towering icebergs, glaciers and amazing wildlife. Depending on weather conditions these excursions will hopefully happen daily.

### **Optional Activities - Days 5-8**

#### **Polar Plunge**

You remembered to pack your bathing suit, right? Depending on weather conditions, opt to do the polar plunge and jump into the frigid waters of the Antarctic. Convince some of your fellow passengers to join and you'll be left with an amazing group experience no one will ever forget!

**Meals included: Breakfast | Lunch | Dinner**

### **Days 9-10 Drake Passage/Ushuaia**

Begin the journey north to the home port of Ushuaia. Review the highlights of the Antarctic experience with the lecturers and staff. Keep your eyes open on the observation deck for some last-minute whale sightings.

Leave Antarctica and head north across the Drake Passage. In between bird watching and whale watching and enjoying some final lectures by the expedition staff, this is a chance to relax and review the adventures of the past week before returning to Ushuaia.

Remember, the best way to experience the wildlife of the Drake Passage is to be on deck keeping a look out for Albatross, Prions, and Whales!

### A NOTE ON FLYING INTO USHUAIA

From our experience we have found that there are significant delays especially in high season on flights from Buenos Aires to Ushuaia. We highly recommend booking your travel arrangements to arrive into Ushuaia earlier in the day on Day 1. We are happy to book additional pre-tour accommodations should you want some additional time in Ushuaia.

All international flights flying into Buenos Aires arrive at Ministro Pistarini Airport (EZE) in Buenos Aires. Please check with your airline as to which airport your domestic flight will be flying out of.

Most flights that continue to Ushuaia depart from the domestic airport (J. Newberry - AEP). Please check with your airline to make sure which airport you are flying out of. On arrival at the International airport, there is an airport shuttle service, Manuel Tienda Leon, available at an approximate cost of USD \$16.00 each way. It is about 1 to 1.5 hours between the airports, so please allow yourself enough time.

Please also confirm the luggage restrictions for your flight from Buenos Aires to Ushuaia as domestic flights generally allow less luggage than international flights.

These passengers should then return to retrieve their luggage and board a second transfer to Ushuaia airport at 12:30 pm or 4:30 pm, depending on their flight times. Please note that the transfer times are subject to change according to flight schedules.

With the understanding that most will be needing to connect to their International flights in Buenos Aires, you can arrange departure flights from Ushuaia starting from 09:45am onwards. Although if possible, we suggest you consider booking after 11:00am as this will provide additional time to connect.

## What to Take

---

Most airlines allow one checked bag and two carry-on per person. To avoid any problems at check-in and with possible excess baggage charges, please consult the airline for specific restrictions. For storage on board the expedition ship soft compactible luggage makes storage much easier.

Dress on board is informal. Plan to bring comfortable, casual clothing for all activities. Bring wind and waterproof outer layers. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibers, like polar fleece, retain heat better than cotton. When packing, we suggest that you do not weigh yourself down with too many clothes or too much gear. Select informal, practical attire that can be worn in layers.

One of the important items that you will need to bring on your voyage is a pair of waterproof pants. It is possible to rent gear in Ushuaia for the expedition, but the quantity and quality of gear varies greatly depending on the demand. For the location of a rental shop consult with the front desk of the hotel where you are staying. If arriving on embarkation day you will NOT have time to rent the gear. You will also not have time to return the rental gear if you have a morning flight departing Ushuaia.

In the world's most remote destinations that the G Expedition travels to we cannot offload our plastics, glass or tin waste for recycling. Therefore, we try to reduce what single use items that we use. You will see on the ship that every effort is being used to stop the use of single use plastic containers, bags and other items. In an effort to prevent plastic waste from entering the waste stream, we are asking for your help. We offer exceptional drinking water on the ship with refilling stations for your re-useable water containers. You will be provided a complimentary water bottle to fill up as needed. Plastic items such as single use shampoo/conditioner plastic containers cannot be recycled, so please plan to bring any plastics back to your home countries for recycling. Please do not bring single use items that you intend to leave behind such as plastic bags and throw away razors. Your participating in helping to prevent pollution and promote recycling is greatly appreciated.

## Detailed Trip Notes

---

Experience Counts

Accompanying the voyage is our dedicated and experienced expedition staff, naturalists and lecturers who share with us their knowledge, enthusiasm and commitment to the environment. Our ship is manned by officers and crew, all highly experienced in ice navigation.

Environmental Policy

We are dedicated to minimizing the impact of our expedition on wildlife and sensitive natural habitats. We operate environmentally responsible cruise and expeditions and follow all internationally agreed regulations of conduct ashore. We are all privileged visitors - and committed to the future of these extraordinary, icy realms.

Safety First

Although expedition cruising is adventurous by nature, the safety of our passengers and staff is paramount. Our ship is equipped and maintained to cope with the most challenging conditions and is manned by experienced and conscientious officers, crew and expedition staff. The Zodiac landing craft used for shore landings are rugged and versatile and are operated by experienced drivers in a responsible manner. Onboard you will be fully briefed on safety issues and our environmental policy and you will receive appropriate and detailed briefings before every landing.

Expedition Staff and Lecturers

A carefully chosen team will lead our voyage. They are chosen not only for their local knowledge and wealth of experience but also for their great love of the Antarctic. With formal lectures, as well as informal briefings and discussions, your lecturers and Expedition Leader will cover all aspects of the voyage including ornithology, marine biology, geography, geology, history and the environment, as

well as practical things like photography.

#### Tips for Travellers

We are all privileged visitors to these extraordinary, icy realms. As a traveller, it is your responsibility to help ensure your impact on Antarctica's flora and fauna is minimal.

The following are excerpts from the GUIDANCE FOR VISITORS TO THE ANTARCTIC:

#### Respect wildlife

Do not feed, touch, or handle birds or seals, or approach or photograph them in ways that cause them to alter their behavior. Special care is needed when animals are breeding or molting. Keep a minimum distance of 5 meters (15 feet) from all wildlife.

#### Respect vegetation

Do not damage plants, by walking or landing on extensive moss beds or lichen-covered scree slopes. They are fragile and take generations to grow.

#### Respect the environment

Do not collect or take away biological or geological specimens or artifacts as souvenirs, and do not dispose of litter or garbage on land.

#### Take photos with care

Keep low as you will appear less threatening to animals and it will also yield better photographs. Do not try to make an animal react for a photograph. If an animal's behavior changes you are too close.

#### Stay Safe

Take note of, and act on, the advice and instructions from your leaders, and do not stray from your group.

## Spending Money

---

Every traveller is different and therefore spending money requirements will vary. Some travellers may drink more than others while other travellers like to purchase more souvenirs than most. Please consider your own spending habits when it comes to allowing for drinks, shopping and tipping. Please also remember the following specific recommendations when planning your trip.

## Money Exchange

---

Before and after the cruise:

Credit cards and debit cards are very useful for cash advances. Visa cards are the most widely accepted cards. While ATMs are widely available, there are no guarantees that your credit or debit cards will actually work overseas. Check with your bank. You should be aware that to purchase products or services on a credit card a fee of 5%-10% usually applies. Do not rely on credit or debit cards as your only source of money. A combination of US dollars cash and cards is best. Always take more rather than less, as you don't want to spoil the trip by constantly feeling short of funds.

While on board our Expedition ships, cash and most major credit cards (VISA, Mastercard and AMEX) are accepted to clear incidental bills at the end of the cruise by the ship's Purser (ie. bar bills, laundry etc.).

## Emergency Fund

---

Please also make sure you have access to at least an additional USD \$200 (or equivalent) as an 'emergency' fund, to be used when circumstances outside our control (ex. a natural disaster) require a change to our planned route. This is a rare occurrence!

## Departure Tax

---

USD \$5.00 from Ushuaia

USD \$18.00 from Buenos Aires

## Tipping

---

Although it may not be customary to you, it is of considerable significance to the people who will take care of you during your travels. It is an expression of satisfaction with the persons who have assisted you on your expedition. The industry standard and suggested amount is USD \$10 - 15 per person per day spent on board. Of course, tipping is a personal choice and the suggested amount is set

only as a guideline. The money is collected by the Hotel Manager at the end of the voyage and distributed amongst the crew and Expedition Staff. The Officers choose not to participate in the tipping pool.

## Optional Activities

---

All prices are per person in US dollar amounts. Pricing can vary based on currency conversion rates.

USHUAIA (activities require additional time in Ushuaia and can be booked upon arrival):

Estancia Harberton \$100 USD

Horseback riding \$50-70 USD

Bus to Park Entrance (return Tierra del Fuego National Park) \$20 USD

Walk With Penguins - \$140 USD (6 hours)

Museum Entrance \$7 USD

Mountain Biking \$10 USD

Ushuaia Heli Tours - Pricing from \$100 USD (7 minute Helicopter flight) to \$510 USD (45 minute Helicopter flight)

Entrance to Spa \$40 USD

## Health

---

Please consult your doctor for up-to-date medical travel information well before departure. We require all passengers traveling to Antarctica to complete and submit our medical questionnaire. The questionnaire can be found online at:

[www.gadventures.com/online\\_medical\\_form](http://www.gadventures.com/online_medical_form)

Passengers with preexisting medical conditions are required to submit a medical form signed by a physician to their booking agent. It is very important that we are advised of any special meal requirements, food allergies, or prescribed medication when you confirm your tour. The ship is equipped with a small infirmary with typically required medications and limited equipment. The ship's doctor is available for visits during the day and is available 24 hours per day for emergencies.

In case of an emergency, please also bring with you a signed and dated letter from your physician (to be given to our doctor on board, as well as for any medical authorities) stating any health problems and dosage requirements. International health regulations do not currently require any inoculations for the countries that you will visit on our voyage. We suggest that you confer with your own physician to be sure your routine immunizations, such as tetanus, diphtheria and hepatitis A, are up-to-date before traveling. Older travelers, in particular, may wish to consider preventive measures against influenza and pneumonia.

## Safety and Security

---

Many national governments provide a regularly updated advice service on safety issues involved with international travel. We recommend that you check your government's advice for their latest travel information before departure. We strongly recommend the use of a neck wallet or money belt while travelling, for the safe keeping of your passport, air tickets, travellers' cheques, cash and other valuable items. Leave your valuable jewellery at home - you won't need it while travelling. Many of the hotels we use have safety deposit boxes, which is the most secure way of storing your valuables. A lock is recommended for securing your luggage. When travelling on a group trip, please note that your CEO has the authority to amend or cancel any part of the trip itinerary if it is deemed necessary due to safety concerns. Your CEO will accompany you on all included activities. During your trip you will have some free time to pursue your own interests, relax and take it easy or explore at your leisure. While your CEO will assist you with options available in a given location please note that any optional activities you undertake are not part of your itinerary, and we offer no representations about the safety of the activity or the standard of the operators running them. Please use your own good judgment when selecting an activity in your free time. Although the cities visited on tour are generally safe during the day, there can be risks to wandering throughout any major city at night. It is our recommendation to stay in small groups and to take taxis to and from restaurants, or during night time excursions.

Protests and Demonstrations- Protests and demonstrations, even those that are well intended, have the potential to turn violent with no warning. Counter protests can also turn violent. Action by security forces to disperse demonstrators and protesters may occur at any time. If you are in an area where demonstrators or protesters are gathering, avoid the temptation of staying for a good photo opportunity and leave the area immediately.

Water based activities have an element of danger and excitement built into them. We recommend only participating in water based activities when accompanied by a guide(s). We make every reasonable effort to ensure the fun and adventurous element of any water based activities (in countries with varying degrees of operating standards) have a balanced approach to safety. It is our policy not to

allow our CEOs to make arrangements on your behalf for water based activities that are not accompanied by guide(s).

Swimming, including snorkeling, is always at your own risk.

We take all prudent measures in relation to your safety. For ways to further enhance your personal safety while traveling, please visit:

## Trip Specific Safety

We recommend that you wear minimal jewelry and that you keep valuable items safely stored in our complimentary safety deposit box, which is located at the Purser's Desk.

---

## Medical Form

Our small group adventures bring together people of all ages. It is very important you are aware that, as a minimum, an average level of fitness and mobility' is required to undertake our easiest programs. Travellers must be able to walk without the aid of another person, climb 3-4 flights of stairs, step on and off small boats, and carry their own luggage at a minimum. Travellers with a pre-existing medical condition are required to complete a short medical questionnaire, which must be signed by their physician. This is to ensure that travellers have the necessary fitness and mobility to comfortably complete their chosen trip. While our CEOs work hard to ensure that all our travellers are catered for equally, it is not their responsibility to help individuals who cannot complete the day's activities unaided. Please refer to the physical ratings in this Trip Details document for more information.

Please note that all passengers traveling to Antarctica are required to fill out this questionnaire.

The medical questionnaire can be found online at:

[www.gadventures.com/medical-form](http://www.gadventures.com/medical-form).

## A Couple of Rules

Illegal drugs will not be tolerated on any trips. Possessing or using drugs not only contravenes the laws of the land but also puts the rest of the group at risk. Smoking marijuana and opium is a part of local culture in some parts of the world but is not acceptable for our travellers. Our philosophy of travel is one of respect towards everyone we encounter, and in particular the local people who make the world the special place it is. The exploitation of prostitutes is completely contrary to this philosophy. Our CEOs have the right to expel any member of the group if drugs are found in their possession or if they use prostitutes.

---

## Travel Insurance

Travel Insurance: Travel insurance is compulsory in order to participate on any of our trips. When travelling on a group trip, you will not be permitted to join the group until evidence of travel insurance has been sighted by your CEO, who will take note of your insurance details. When selecting a travel insurance policy please bear in mind that all clients must have medical coverage and that we require a minimum coverage of USD 200,000 for repatriation and emergency rescue. We strongly recommend that the policy also covers personal liability, cancellation, curtailment and loss of luggage and personal effects. If you have credit card insurance we require proof of purchase of the trip (a receipt of credit card statement) with a credit card in your name. Contact your bank for details of their participating insurer, the level of coverage and emergency contact telephone number.

## Trip Specific Responsible Travel

---

### OUR COMMITMENT TO RESPONSIBLE TRAVEL IN ANTARCTICA

As a leader in Sustainable Tourism, we are committed to ensuring that all of our marine expeditions operate in a socially and environmentally responsible manner. All expeditions aboard the expedition ship meet and exceed all environmental regulations and protocols in the regions that we visit.

The International Association of Antarctic Operators (IAATO)

G Adventures holds Full Membership Status with IAATO, an organization that advocates, promotes and ensures safe and environmentally responsible private-sector travel to the Antarctic. All operations aboard our ship adhere to IAATO's strict rules, regulations and guidelines for operating in Antarctica. For more information visit [www.iaato.org](http://www.iaato.org)

#### Staff & Crew:

Our crew and expedition team act as stewards of the environment and are well versed in the strict environmental protocols on board and on land. All of our travellers are thoroughly briefed in these protocols before being allowed to participate in excursions and are always supervised by our team when on shore.

#### 4-Stroke Outboard Engines:

In an effort to drastically reduce environmental pollutants 4-stroke outboard engines have been installed on all of our zodiacs. Our 4-stroke outboard motors use less fuel and produce less noise pollution than 2-stroke engines. Since there is no mixing of oil and gas the exhaust is intrinsically much cleaner and friendlier to the environment.

#### Planeterra Foundation

Through our commitment to responsible tourism we have developed the Planeterra Foundation, a non-profit organization that supports local community projects and international charities around the world.

#### Sea Chart Auction:

At the end of each Antarctica departure, the Captain's Sea Chart is auctioned and all proceeds are donated to international organizations through Planeterra.

Our end goal is to minimize the potential negative impact of tourism in the areas we operate while maximizing the positive impact of instilling a widened understanding and appreciation of these regions. During our voyages, we ask all our passengers that they see their visit to these areas as a privilege and that they share their newfound knowledge and experiences with others when they return home. We also hope that by bringing people to these regions that they continue to act as ambassadors and stewards of these areas.

## Planeterra-The G Adventures Foundation

---

Through our commitment to responsible tourism we have developed the Planeterra Foundation, a non-profit organization dedicated to making a positive difference in the lives of people and communities around the world through support of international charities, local organizations and community projects in the places that we visit on our tours. G Adventures matches all individual donations and pays all administration costs, which means that 100% of each donation is doubled and goes directly to support our projects. For more information about Planeterra and the projects we support, or to make a donation, please visit [www.planeterra.org](http://www.planeterra.org)

#### Planeterra Dollar-A-Day Program

Our Dollar-A-Day Program provides travellers with the opportunity to help us give back to the people and places visited on our tours by donating one dollar per day for the duration of their tour. 100% of these proceeds will go directly to support our G Adventures for Good projects.

To participate in this program please indicate at the time of booking that you would like to participate in G Adventures' Dollar-A-Day program, either by clicking the check box online, or by advising your G Adventures specialist or travel agent. (Note: Donation will be charged in the currency of your booking)

## Keeping in Touch on the G Expedition

---

While you are on board the G Expedition, we know that keeping in touch with your family and friends is important to you. We want to ensure you have the tools available to keep you connected in some of the most remote regions of the world. We have a satellite system, which allows our travellers to connect to the internet or make phone calls with the purchase of personal data credit. Travellers may use our computer room or use any Wi-Fi enabled device to connect to our network, which is available in public areas on Decks 4 and 5. Satellite phone service is available and private calls can be made from our phone booth. Due to using a satellite connection and travelling in remote regions, internet can be slow and sometimes unavailable. The connection in the high Arctic is particularly challenging and no connection is available while in and around South Georgia Island.
